

GPS Education Partners is an innovative education model that uniquely prepares students to succeed in technical careers and promotes viability for businesses.

GPS is a non-profit organization that prepares high school juniors and seniors for continued education, meaningful careers, and productive lives through integrated work-based programs. We partner with local schools, tech colleges and businesses to deliver a work based immersive and rigorous learning experience that uniquely prepares students for meaningful careers.

We are fundamentally changing the way technical education is delivered in the U.S., and we are looking for enthusiastic team members to join our team and be a part of our incredible mission as we grow to new heights.

If you are a self-starter, goal-oriented, and enjoy meaningful work in a fast-paced team environment, then we would like to hear from you today.

GPS Education Partners is seeking an **Instructor** for one of our education centers, located in CESA District 1.

Primary Responsibilities:

- Ensure highly professional instructional practices in execution of the innovative curriculum for students in an education center
- Facilitate and develop positive relationships with students, parents, school district leaders, and business mentors in execution of the GPS Program at assigned education center
- Ensure comprehensive assessment of the student's performance and provide feedback regularly
- Develop project based learning opportunities to ensure concept mastery through multiple subject areas
- Serve as part of the team responsible for the execution of the Education Center and the GPS Program as required
- Represent GPS in special events, civic and community organizations and through the business partner interactions
- Other duties as assigned

Qualifications (Education/Experience):

- Bachelor's degree and 2-5 years teaching experience required
- Wisconsin Teaching License in Alternative Education (952) or the ability to obtain one
- Strong experience in developing and delivering Technical Education curriculum
- Highly organized and strong communication skills (verbal and written)
