GPS Education Partners (GPSEd) is a non-profit organization that utilizes an innovative education model that builds strategic partnerships with education, business, and the community. These partnerships enable us to accelerate students interested in technical careers, by preparing them through a credentialed work-based learning solution.

GPS is seeking candidates with proven success in an Alternative Education classroom for an opening in one of our education centers, located in Milwaukee. If you enjoy self-directed work, and connecting the right resources to help high school students grow and develop, this may be a great fit for you. This job involves:

- Ensuring highly professional instructional practices in execution of the innovative curriculum for students in an education center
- Facilitating and develop positive relationships with students, parents, school district leaders, and business mentors in execution of the GPS Program at assigned education center
- Ensuring comprehensive assessment of the student’s performance and providing feedback regularly
- Developing project-based learning opportunities to ensure concept mastery through multiple subject areas
- Serving as part of the team responsible for the execution of the Education Center and the GPSEd Program as required
- Representing GPSEd in special events, civic and community organizations and through the business partner interactions
- Other duties as assigned

Our team is made up of people who are driven by the impact of our work on students, businesses, and communities. GPSEd values employees who are innovative, collaborative, and not afraid to fail. We do not obsess over hierarchy, or what department we are assigned to. We obsess over the experience we deliver, and the impact we have.

Key Qualifications:

- Self-motivated. Driven to resolve ambiguous problems.
- Ability to balance competing priorities and shift focus on the fly.
- Excellent written and verbal communication skills; able to effectively tailor a message to a variety of audiences.
- Bachelor’s degree and 5 years teaching experience desired
- Wisconsin Teaching License in Alternative Education (952) or the ability to obtain one
- Experience in delivering Technical Education curriculum a plus
